

Assignment 1: Designing a Data Science Solution
for a Real-World Problem
Designing a Data Science Solution

1. The data science solution is a data science solution that is designed to solve a real-world problem.

- 1. The data science solution is a data science solution that is designed to solve a real-world problem.
- 2. The data science solution is a data science solution that is designed to solve a real-world problem.
- 3. The data science solution is a data science solution that is designed to solve a real-world problem.
- 4. The data science solution is a data science solution that is designed to solve a real-world problem.
- 5. The data science solution is a data science solution that is designed to solve a real-world problem.

Data Science	
Problem	Yes
Designing a solution	Yes
Yes	Yes
Yes	Yes

How Well-Working was

1.

How	Problem	Design	Results of Data
1	Problem: Designing a solution	Yes	
2	How well a solution was designed	Yes	
3	How well a solution was designed	Yes	Yes
4	How well a solution was designed	Yes	Yes
5	How well a solution was designed	Yes	Yes
6	How well a solution was designed	Yes	Yes
7	How well a solution was designed	Yes	Yes
8	How well a solution was designed	Yes	Yes
9	How well a solution was designed	Yes	Yes
10	How well a solution was designed	Yes	Yes
